## EDUCATION

### B.Tech
GITAM UNIVERSITY

*09/2021 - 04/2025*                                              *Bangalore*

Courses
- Computer science and engineering

### INTERMEDIATE
Sri Saytam junior college

*07/2019 - 05/2021*                                              *sullurpet*

Courses
- MPC

## SKILLS

HTML   CSS   JAVASCRIPT   C   PYTHON

IOT HARDWARE

## PERSONAL PROJECTS

### CHAT BOT USING GOOGLE CLOUD
- Utilizing Google Cloud services, our mini project crafts a Chat Bot employing natural language processing and machine learning. It offers personalized communication through sentiment analysis, showcasing the power of cloud-based solutions in creating responsive conversational agents.

### SMART CLASSROOM WITH IOT BASED
- The Smart Classroom Senior Project pioneers innovative tech like interactive displays, IoT, and automation, creating a collaborative learning space. It optimizes teaching, engages students, and streamlines tasks, envisioning an intelligent educational environment.

### PARKING MANAGMENT SYSTEM
- By combining computer vision with dedicated parking cameras, our project delivers an automated, efficient parking management system. It maximizes space, bolsters security, and enhances the parking experience via real-time monitoring and analysis.

## CERTIFICATES

Python programing

C programing

Frontend Developer

## LANGUAGES

English
*Professional Working Proficiency*

Telugu
*Full Professional Proficiency*

Tamil
*Full Professional Proficiency*

## INTERESTS

Playing shuttle    Traveling to new places

Gardening plants
